About Me

Driven by a long-standing interest in programming, I am a Full-stack Developer focusing on ASP.NET and Next.js. Having experienced roles as both a team contributor and leader, I value the importance of adaptability and constant self-improvement. I am eager to apply my current knowledge while learning from experienced mentors in a professional setting.

Programming skills

- Web programming
- Mobile programming
- Database design

Programming languages

- C#
- Javascript, Typescript
- Node.js

Languages

Vietnamese	Native
English	Intermediate

Experience

Freelance Project

2026

FPT University

FPTscSpace Tool (Full-stack Developer). Developed a full-stack management system for TikTok content teams using Next.js and Firebase. Successfully integrated TikTok APIs to fetch, monitor, and store channel analytics into a NoSQL database. Managed the entire lifecycle from design to deployment within 2 month, significantly streamlining the data tracking process for content creators.

Capstone project

2025

FPT University

PPERHUE Application (Full-stack Developer & Team Leader). PERHUE was developed as a personal color analysis app featuring real-time camera filters, AI-powered styling suggestions and especially expert suggesting connection. Lead a team of 4 to deliver a complete ecosystem using React Native for mobile, React for the web interface, and ASP.NET Core for the backend API.

Intern in FPT Software

2025

FPT Software

Worked as an Intern at FPT Software, focusing on the development and maintenance of internal tools.

Minicapstone subject

2024

FPT University

FSTEP Student Exchange Tool (MVC Developer). Built a robust mini e-commerce platform using ASP.NET core MVC and SQL Server for student item exchanges. Developed and maintained 50+ core functions, including secure authentication, product management, and third-party API integrations. Delivered a scalable backend solution within a 4-member agile team.

Education

Student Of Software Engineering

2021 - 2025

FPT University Campus Ho Chi Minh

Graduated Software Engineering Student of FPT University.
Completed all of educated program with GPA 7.93

Learner of Coursera

2021 - 2024

Coursera

Certificate from Coursera of technology information courses.
During a semester of University I got certificate:

- Computer Communications Specialization
- Web Design for Everybody: Basics of Web Development & Coding Specialization
- Java Enterprise Edition Specialization
- Software Development Lifecycle Specialization
- Project Management
- The UI/UX Design
